

# Magic

Michael Nesmith

This night is magic  
I can tell by the stars  
This night is magic  
With you in my arms  
It would be tragic  
If we ever part  
Tonight is magic for love

You know I love you  
Look in my eyes  
You know I love you  
It's paradise  
For me to love you  
And drift through the skies  
The skies of magic and love

If you believe, it will always come true  
That's the magic of love  
I keep believing I'll always have you  
That's the magic of trust

This love is magic  
I feel it inside  
This love is magic  
There's nothing to hide  
Our life is magic  
We'll stay side by side  
And feel the magic of love

This night is magic  
I can tell by the stars  
This night is magic  
With you in my arms  
It would be tragic  
If we ever part  
Tonight is magic for love

This night is magic  
You know it's magic  
Ooh, it's magic
