

# Flag

Michael Patrick Kelly

Here lately it's stormy  
Strong winds are blowing  
You think you're about to let go  
When the times are heartbreaking  
Stressful and shaking  
There's always a high ground and hope

Our colours aren't the same  
But there's a promise and a way  
With all the strength we have  
We'll raise the flag

It will sail against the sky  
Like a beacon in the night  
To lead and guide us back  
We'll wave the flag

I wave your flag  
I wave your flag  
Fly it high up above me  
So you can find me  
Your flag  
I wave your flag  
I know you will find me  
I'll raise it high high high  
We'll raise it high high high

No life won't be easy  
Differences try us  
But love always lightens the soul  
So listen for trumpets  
Announcing the coming  
Of friendship and peace in our home

There is comfort, there is faith  
And in courage there is grace  
Never let the banner drag  
Let's wave the flag

I wave your flag  
I wave your flag  
Fly it high up above me  
So you can find me  
Your flag  
I wave your flag  
I know you will find me

I wave your flag  
I wave your flag  
Fly it high up above me  
So you can find me  
Your flag  
I wave your flag  
I know you will find me

I wave your flag  
I wave your flag

Fly it high up above me  
So you can find me  
Your flag  
I wave your flag  
I know you will find me

I'll raise it high (high), high, high  
We'll raise it high (high), high, high  
I'll raise it high (high), high, high  
We'll raise it high (high), high, high
