

Out Of Touch

Michael Patrick Kelly

They left me stranded in the dark
And tore the thread back to your heart
A thousand bullets fill the sky
And once again divide
Are you lonely where you are?

The world is trying to change us
From lovers into strangers
Don't let them pull us out of touch
I would run through the fire
Crawl under the wire
If you're thinking that your hope is lost

Don't shut me out
Don't cut me off
Even if it's one in a million
I'm still believing
Every battle can be won

Don't shut me out
Don't cut me off
Don't you know that the truth hits hardest
The night is the darkest
Right before the break of dawn

Another bridge is left to burn
So many lessons never learned
But we have freedom in our minds
Light in troubled times
'Til better days return

The world is trying to change us
From lovers into strangers
So close and yet so far apart
I would run through the fire
Crawl under the wire
Until I get to where you are

Don't shut me out
Don't cut me off
Even if it's one in a million
I'm still believing
Every battle can be won

Don't shut me out
Don't cut me off
Don't you know that the truth hits hardest
The night is the darkest
Right before the break of dawn

The world is trying to change us
From lovers into strangers
Don't let them pull us out of touch
I am running through the fire
Crawling under wire
Don't tell me that your hope is lost

Don't shut me out
Don't cut me off
Even if it's one in a million
I'm still believing
Every battle can be won

Don't shut me out
Don't cut me off
Don't you know that the truth hits hardest
The night is the darkest
Right before the break of dawn

Don't shut me out
Don't cut me off...
