

# Run Jump Fly

Michael Patrick Kelly

Standing on the edge of a mountain  
I can feel your heart is pounding  
Hold on, here I am  
You know we got a leap of faith here  
You know we gotta just be brave here

Hold on, I know we can  
Got butterflies in our bellies  
And a burning deep inside  
But we're so alive

Let's run, run, run and jump, fly  
Run, run, run and jump, fly  
We're only given one shot, one life  
Let's run, run, run and jump, fly

We can find wings on the way down  
Touch heaven when we're sky bound  
Hold on, here we go  
We can be strong and fearless  
Do anything if we do this

Hold on, even though  
Got butterflies in our bellies  
And a burning deep inside  
But we're so alive

Let's run, run, run and jump, fly  
Run, run, run and jump, fly  
We're only given one shot, one life  
Let's run, run, run and jump, fly

Standing on the edge of a mountain  
I can feel your heart is pounding  
You know we gotta' just be brave here  
We're so alive

Let's run, run, run and jump  
Let's run, run, run and jump, fly  
We're only given one shot, one life  
Let's run, run, run and jump, jump, jump  
Run, run, run and jump, fly  
Run, run, run and jump, fly  
We're only given one shot, one life  
Let's run, run, run and jump, fly
