

Dive Bars & Broken Hearts

Michael Ray

On and off again that's how the story goes
We only like our labels on long necks nice and cold
You're hanging over me and I'm hung up on you
Yeah, we're both bringing heartbreak back in style
Like it's cool

Damn, girl, we're no good but somehow still so good
Guess I'm just a Jones song and you're my steel guitar
We'll dance on forever to that broken record
Girl, we go together like dive bars and broken hearts
Baby, love me slow, sunrise waking up a long night
Misery and gin we go like dive bars and broken hearts

Guess I should move on
Don't know where to start
Wouldn't know what to do without it tearing me apart
Pawn shop diamond ring
Cigarettes and smoke
Both need each other bad, but, girl, we really don't

Damn, girl, we're no good but somehow still so good
Guess I'm just a Jones song and you're my steel guitar
We'll dance on forever to that broken record
Girl, we go together like dive bars and broken hearts
Baby, love me slow, sunrise waking up a long night
Misery and gin we go like dive bars and broken hearts
Can't seem to get it right
But we'll try it again tonight, yeah
We're right at home just like dive bars and broken hearts

Damn, girl, we're no good but somehow still so good
Guess I'm just a Jones song and you're my steel guitar
We'll dance on forever to that broken record
Girl, we go together like dive bars and broken hearts
Baby, love me slow, sunrise waking up a long night
Misery and gin we go like dive bars and broken hearts

Broken hearts, dive bars and broken hearts
(Dive bars and broken hearts)
We'll try it again tonight, yeah
We're right at home just like dive bars and broken hearts
(Dive bars and broken hearts)
