Get Her Back

Michael Ray

We used to be fire, used to be smoke
Used to burn it down everywhere we went
Coulda swore we were different
Now I see her at the bar, see her with her friends
See her at the church every now and then
Now I'm seein' her all over him

She got me out my brain
Would've done anything
Just to get her back

Now I just wanna get her back
For everything that she did behind closed doors
All the lies and the signs that I ignored
Because I swore that I loved her, but now that it's over
I just wanna get her back
Send a text, show her who her friends are
Cut deep, get even with a broken heart
Lucky for her, I wasn't raised like that
But, damn, I wanna get her back
Damn, I wanna get her back

Look at her go, like she don't know
She's just actin' like nothin' happened
In the aftermath with her drink, laughin'

She got me out my brain
Would've done anything
Just to get her back

Now I just wanna get her back
For everything that she did behind closed doors
All the lies and the signs that I ignored
Because I swore that I loved her, but now that it's over
I just wanna get her back
Send a text, show her who her friends are
Cut deep, get even with a broken heart
Lucky for her, I wasn't raised like that
But, damn, I wanna get her back
Damn, I wanna get her back

I gave her all I had
She turned a good thing bad
Hell, I don't want her back

(Now I just wanna get her back)
For everything that she did behind closed doors
All the lies and the signs that I ignored
'Cause I swore that I loved her, but now that it's over
I just wanna get her back
Send a text, show her who her friends are
Cut deep, get even with a broken heart
Lucky for her, I wasn't raised like that
But, damn, I wanna get her back
Damn, I wanna get her back

(I gave her all I had)

(She turned a good thing bad)
(Hell, I don't want her back)
