

# I'm Gonna Miss You

Michael Ray

Most nights I can keep it buried in the back of my head  
On most nights I can have a couple drinks, I can take of the edge  
And then I don't have to think about, try not to think about you  
That's what I do on most nights, but tonight

I'm gonna miss you, I let it hit me  
I'm gonna sit here and wish you were with me  
I'm gonna let that goodbye hurt me  
I wanna feel it, no mercy  
I reminisce you, I'm gonna go there  
I know I shouldn't, but right now I don't care  
'Stead of spendin' my night losin' the fight, tryin' to forget you  
Baby I, I'm gonna miss you

Most nights I try to stay away from any memory  
From this nights when you were still sleepin', dreamin' next to me  
But I'm 'bout to put on continue and slow dance in this burnin' room

I'm gonna miss you, I let it hit me  
I'm gonna sit here and wish you were with me  
I'm gonna let that goodbye hurt me  
I wanna feel it, no mercy  
I reminisce you, I'm gonna go there  
I know I shouldn't, but right now I don't care  
'Stead of spendin' my night losin' the fight, tryin' to forget you  
Baby I, I'm gonna miss you

I'm gonna think about Charleston, weekend Airbnb  
And that Carolina heat had nothin' on you and me  
I'm gonna think about that first kiss in the rain, it was June  
Remember how we said forever? I'm gonna think about that too

I'm gonna miss you, I let it hit me  
I'm gonna sit here and wish you were with me  
I'm gonna let that goodbye hurt me  
I wanna feel it, no mercy  
I reminisce you, I'm gonna go there  
I know I shouldn't, but right now I don't care  
'Stead of spendin' my night losin' the fight, tryin' to forget you  
Baby I, I'm gonna miss you

I'm gonna miss you
