

Spirits And Demons

Michael Ray

I thought goodbyes, smoky dives and barstools
Would all go together
I thought bourbon on the rocks, bartender pit talks
Would make it all better
I thought these late nights would work out
Blurred out that ring on the dresser
But gettin' over you drunk is the only thing about us
Lastin' forever

Spirits and demons won't bring no healin'
Ain't no miracle at the bottom of the bottle I'm drinkin'
It's just a buzz on a broken heart barely beatin'
Gas on a fire mix it with whiskey and you leavin'
Spirits and demons

I done the Fridays my friends say is the right way
To drown out the voices
But they get louder in the mornin'
And wasting that red wine feels pointless
And I thought these late nights would work out
And blur out the cologne on your sweater
But gettin' over you drunk is the only thing about us
Lastin' forever and ever and ever

Spirits and demons won't bring no healin'
Ain't no miracle at the bottom of the bottle I'm drinkin'
It's just a buzz on a broken heart barely beatin'
Gas on a fire mix it with whiskey and you leavin'
Spirits and demons

Oh yeah

Gettin' over you drunk is the only thing about us
Lastin' forever, forever and ever

Spirits and demons won't bring no healin'
Ain't no miracle at the bottom of the bottle I'm drinkin'
It's just a buzz on a broken heart barely beatin'
Gas on a fire mix it whiskey and you leavin'
Spirits and demons

Oh oh oh oh oh oh
Whoo whoo oooh oooh

Gettin' over you drunk is the only thing about us
Lastin' forever and ever and ever
