

# Think A Little Less

Michael Ray

Midnight's creepin' in, we know better  
Than leaving here together  
And in case you were wondering  
You've never looked hotter  
So why even bother  
Looking at the reasons not to  
Maybe we ought to

Kiss a little more  
Think a little less  
Burning up the night like a cigarette  
And get you out of this bar  
Out of that dress  
And kiss a little more  
And kiss a little more  
Think a little less

When your friends start asking you  
Look 'em in the eyes  
Tell a white lie  
How I dropped you off at home  
And I walked you to the door  
Nothing more  
Tomorrow you can say we're just friends  
But baby 'til then

Kiss a little more  
Think a little less  
Burning up the night like a cigarette  
And get you out of this bar  
Out of that dress  
And kiss a little more  
Kiss a little more  
Think a little less

I'll go warm up the truck if you wanna hop in  
Give you a minute or two  
To say goodbye to your friends  
Ain't gotta go home  
But we gotta get gone  
Cause we've already waited way too long to...

Kiss a little more  
Think a little less  
And do the only thing we've been thinking 'bout doing  
Since the moment, girl, we met

Kiss a little more  
Think a little less  
Burning up the night like a cigarette  
And get you out of this bar  
Out of that dress  
And kiss a little more  
Kiss a little more

Kiss a little more  
Think a little less

Burning up the night like a cigarette  
And get you out of this bar  
Out of that dress  
And kiss a little more  
Kiss a little more  
Think a little less

Yeah, think a little less  
Yeah, think a little less
