This Love

Michael Ray

I've had a midnight after some beers thing
I've had a getting late, maybe you should crash here thing
I've had an old flame, hometown good thing
We're reminiscing
Then we're kissing on the hood thing
I've danced out in the rain
Done all the thing that lovers do
But nothing else has ever held a candle to

This love is every feeling that I've ever felt
All mixed up and every girl I've ever held
Was almost so close, thought it was it
Thought it was good as it gets
But none of that was this love

I've felt my heart beat like a kick drum
I've had a friend of a friend try to fix me up
I've had a spring break, heartbreak sunset
A lot of nights that I thought I would never forget
But I forgot 'em when you walked in through that door
Everything has been erased that came before

This love is every feeling that I've ever felt
All mixed up and every girl I've ever held
Was almost so close, thought it was it
Thought it was good as it gets
But none of that was this love

I've had a long love, I've had a quick love
I've had a few things made me wanna quit love
I've had a good kiss, I've had a near miss
But everything I wanted
Got crossed off the list with this love
This love

This love is every feeling that I've ever felt
All mixed up and every girl I've ever held
Was almost so close, thought it was it
Thought it was good as it gets
But none of that was this love

This love
None of that was this love
This love
