

# We Should Get A Drink Sometime

Michael Ray

When I saw you on the street today it took me by surprise  
It was good to see you but I hoped you couldn't see I miss you  
in my eyes  
My mouth sayin' "no", but my heart sayin' "yes"  
Before we turn around to go, the only thing I say

Is we should get a drink sometime, like old friends do  
I can tell you 'bout my life, you could tell me all about you  
Trust me I would understand if you found somebody new  
We don't gotta take all night, but if you think you'd be alright  
We should get a drink sometime  
We should get a drink sometime

Always said when I saw you again, I would try and play it cool  
Maybe say "hi", "how you been" and "goodbye" but you look so beautiful  
That I couldn't even think, I could build them in my mouth  
And when I try to speak, the only thing that came out

Is we should get a drink sometime, like old friends do  
I can tell you 'bout my life, you could tell me all about you  
Trust me I would understand if you found somebody new  
We don't gotta take all night, but if you think you'd be alright  
We should get a drink sometime

Nothin' serious  
Hm, there's a bottle of wine  
And get you talkin' 'bout us, yeah

We should get a drink sometime, like old friends do  
I can tell you 'bout my life, you could tell me all about you  
Trust me I would understand if you found somebody new  
We don't gotta take all night, but even if it takes all night  
We should get a drink sometime  
We should get a drink sometime
