

Girl from Uptown

The Michael Schenker Group

I see the young girl from uptown
She's never looking for me
Whatever street's going up and down
But she's not looking for me

I want to know just who's she's foolin'
I know just what she's about
I wanna know what kind of thing she's in
And why I'm being left out

Try to survive the situation
Firing a spark in my imagination
It made me happy to see her
Why don't she ever look back
Am I too old or is she too young
Could be that I should attack
Try to survive the situation
Firing a spark in my imagination

I want to know just who's she's foolin'
Don't know what she's all about
Maybe that chick just what I'm looking for
Or just checking me out

Can't even figure it out, just what it's about
She'll be matter to me
I wanna answer my heart give the woman some love
Or is she laughing at me

I could wait forever, life would still go on
I could wait forever, life would still go on

I see the young girl from uptown
She's never looking for me
Whatever street's going up and down
But she's not looking for me

I want to know just who's she's foolin'
I know just what she's about
I wanna know what kind of thing she's in
And why I'm being left out

Can't even figure it out, just what it's about
She'll be matter to me
I wanna answer my heart give the woman some love
Or is she laughing at me

I could wait forever, life would still go on
I could wait forever, life would still go on
