

# Are You In, Are You Out

Michael Schulte

Living on the edge  
Got me out of breath  
In this crazy love  
Crazy love

I've been losing sleep  
Diving in the deep  
Tell me what you want  
What you want

'Cause we're so good together  
So take me now or never  
Baby know that I can't wait forever  
Forever

You should know I'm done, done running around  
It's taking a toll on me right now  
Oh, I've been falling down, down, losing my mind  
I'm giving you all of me right now  
You make me wanna stay when I look in your eyes  
Oh, I don't really know if you sell me a lie  
But you should know I'm done, done running around  
Running around, hmm  
Are you in, are you out?

I've been holding on  
Waiting for too long  
When you disappeared  
(Disappeared)

Now my head and heart  
Is tearing me apart  
But I see it clear  
(See it clear)

'Cause we're so good together  
So take me now or never  
Baby, know that I can't wait forever  
Forever

You should know I'm done, done running around  
It's taking a toll on me right now  
Oh I've been falling down, down, losing my mind  
I'm giving you all of me right now  
You make me wanna stay when I look in your eyes  
Oh I don't really know if you sell me a lie  
But you should know I'm done, done running around  
Running around, hmm  
Are you in, are you out?

You should know I'm done done running around  
It's taking a toll on me right now  
Oh I've been falling down down losing my mind  
I'm giving you all of me right now  
You make me wanna stay when I look in your eyes  
Oh I don't really know if you sell me a lie  
But you should know I'm done done running around  
Running around, hmm  
Are you in, are you out?
