

Dreaming out Loud

Michael Schulte

You and I
We fall apart before we learn to fly
Yeah

And in your mind
The hardest part is taking that first dive
And that's alright

What if I tell you
What if I say
Tell you that I've been
Feeling the same
Like you do
It's all good

What if the problems
Faded away
Would you be happy
Every day
I know you
You'll get through

Cause I
Know it's pulling you down
We can leave it for now
Cause I got this feeling like

Ahhh,
We can dream it out loud
Cause this life is so wild
When you're dreaming out loud

Ohoh
When you're dreaming out loud
Ohoh
When you're dreaming out loud

Yeah it takes time
To find out who you are and what you like
Yeah it takes time

But I don't mind
Cause a canvas full of colours makes us bright
That's how we shine

What if I tell you
What if I say
Tell you that I've been
Feeling the same
Like you do
It's all good

What if the problems
Faded away
Would you be happy
Every day
I know you

You'll get through

Cause I
Know it's pulling you down
We can leave it for now
Cause I got this feeling like

Ahhh,
We can dream it out loud
Cause this life is so wild
When you're dreaming out loud

Ohohoh
When you're dreaming out loud
Ohohoh
When you're dreaming out loud

Cause I know that these feelings
Come and go in waves
And sometimes you feel meaningless
But meanings always change

Nothing lasts forever
The good will come your way
And this will make you stronger
Yeah I know some day

Cause I
Know it's pulling you down
We can leave it for now
Cause I got this feeling like

Ahhh,
We can dream it out loud
Cause this life is so wild
When you're dreaming out loud
You're dreaming, dreaming, dreaming
You're dreaming out loud
Cause ahhh
We can dream it out loud
Cause this life is so wild
When you're dreaming out loud
Ohohoh
When you're dreaming out loud
Ohohoh
When you're dreaming out loud
Ohohoh
When you're dreaming out loud
Ohohoh
When you're dreaming out loud
Ohohoh
