

# End of My Days

Michael Schulte

Nobody told me, nobody said  
What I would miss so I was off and away  
Out to the south and out to the west  
Out of that town

Oh, I was off to find the colors of life  
I would sacrifice my time  
Where nobody finds me, nobody wants me and nobody's there

Oh, 'til the day I let you into my head  
I was runnin' away  
Now I'm willing to stay  
Day by day and on tomorrow I'll swear  
That I follow your way 'til the end of my, end of my days  
'Til the end of my days

Was keeping to go low, keeping it light  
No one could follow out to the isle  
Out to the east and out to the north  
Off and away

But then that day when I was so far away  
You would cross my fate and I  
Was feelin' the fire, feelin' the colors  
I was feeling you

Oh, 'til the day I let you into my head  
I was runnin' away  
Now I'm willing to stay  
Day by day and on tomorrow I'll swear  
That I follow your way 'til the end of my, end of my days

'Til the day I let you into my head  
I was runnin' away  
Now I'm willing to stay  
Day by day and on tomorrow I'll swear  
That I follow your way 'til the end of my, end of my days  
'Til the end of my days (oh, 'til the end of my days)

'Til the day I let you into my head  
I was runnin' away  
Now I'm willing to stay  
Day by day and on tomorrow I'll swear  
That I follow your way 'til the end of my, end of my days

Oh, 'til the day I let you into my head  
I was runnin' away  
Now I'm willing to stay  
Day by day and on tomorrow I'll swear  
That I follow your way 'til the end of my, end of my days  
'Til the end of my days

Oh, 'til the end of my days
