

Every Little Piece

Michael Schulte

Every little piece of you
Every little piece of you

I was young
Wanted someone to love and someone to hold
Somebody true

And the one
Would arrive when the timing was right
Now I know
That someone was you

I was gonna give up
For the night
I was gonna give up
Oh no I
Can never give up
Oh no I

Cause every little piece of you
Reminds me of a piece of me
And every little thing you do
I'll carry it around with me
Yes I know I'll be alright cause
I got you by my side, love
Cause every little piece you
Fits every little piece of every little piece of
Every little piece of me
Every little piece of you
Every little piece of me

Finally
Now the waiting was worth it cause you're with me
Here by my side

You and I
With your hand in my hand you're the one that I need
Through lows and highs

I was gonna give up
For the night
I was gonna give up
Oh no I
Can never give up
Oh no I

Cause every little piece of you
Reminds me of a piece of me
And every little thing you do
I'll carry it around with me
Yes I know I'll be alright cause
I got you by my side, love
Cause every little piece of you
Fits every little piece of every little piece of
Every little piece of me
Every little piece of you
Every little piece of me

Cause even in the bad times
When you're feeling small
I've seen you at your worst and best
And I will take it all

No matter the distance
I will be around
Cause I won't let you down

Cause every little piece of you
Reminds me of a piece of me
And every little thing you do
Makes me wanna never leave
Cause every little piece of you
Is everything that I need
Cause every little piece of you
Fits every little piece of every little piece of
Every little piece of me
Every little piece of you
Every little piece of me
