

Far Away

Michael Schulte

I went up north, it took me west
I could not sleep for a while with the rest
I could not climb up the wall
Just leave me out here
I drove the miles, I could not go
I wanted more but I did not show
I want to escape but I am stuck
Too weary

You are so far away
I will go all the way
Will you just take me to
The place where we belong
You are so far away
I cannot find the way
Out in the mist I kept
Following the sun

I went down south, it brought me east
I thought I'd find a spark at least
But as I did I could not keep it lighting
Upon the isle I felt cure
It first felt wrong but strong and pure
But as I left it simply left me broken

You are so far away
I will go all the way
Will you just take me to
The place where we belong
You are so far away
I cannot find the way
Out in the mist I kept
Following the sun

If I never told you back then
If I ever see you again
I'll tell you where I want you to be
Oh I want you close to me

Yeah if I never told you back then
And if I ever see you again
I'll tell you where I want you to be
Oh I want you close to me, oh

If I never told you back then
And if I ever see you again
I'll tell you where I want you to be
Oh I want you close to me
