

Flicker

Michael Schulte

Silence, I'm drowned
With your hair next to mine
These pretty eyes could never lie like a golden color
These pretty eyes could never lie

Your hands taking mine
Someone freezed the time
These pretty eyes could never lie like an endless desert
These pretty eyes could never lie

Bleeding out just like a river mouthing
I need a hand when they're washed away by your flicker, flicker
, flicker

Stuck here in a cloud
When your sky is around
These pretty eyes could never lie like an evil wizard
These pretty eyes could never lie

Bleeding out just like a river mouthing
I need a hand when I'm washed away by your flicker, flicker, fl
icker

Flicker, flicker, flicker...

Silence I'm drowned
With your head next to mine
These pretty eyes could never lie like a golden color
These pretty eyes could never lie

I'm bleeding out just like a river mouthing
I need a hand when I'm washed away by your flicker, flicker, fl
icker
