

Higher

Michael Schulte

Picture the way
i know i know
that i can take it
takin away
into the light that turns into a sign
i know, i know
that i can try to take the steps
to get me up
from where you are
i need to get higher
off the ground
cause i live the fire
make the sound
i need to get higher
off the ground
to break the force from falling down.
drifting away
into the light that turns into a sign
i go straight
don't know, don't know
i lost my way by
i know i know
that i can try to take the steps
to get me up
from where you are
i need to get higher
off the ground
cause i live the fire
make the sound
i need to get higher
off the ground
higher, higher
i need to get higher
off the ground
cause i live the fire
make the sound
i need to get higher
off the ground
to break the force from falling down.
let's go back
to paradise, paradise
don't say
you want
i need to get higher
off the ground
cause i live the fire
make the sound.
higher, higher, higher
off the ground
i need to get higher
higher, higher
off the ground
i need to get higher
off the ground
cause i live the fire
make the sound.
i need to get higher

off the ground
to break the force from falling down.
