Keep You Close

Michael Schulte

Been alone in a sinking ship
Didn't think it'll end like this
When everyone was
Falling in love and falling quick
Never thought I was good at it

And now I got your head on my chest for the rest of forever
Get what you get and I won't ever let it go
I won't forget, when we met, it was special
I'd be a mess without you

I've been waiting all my life to get close to
Someone so good yeah I was supposed to
Be by your side wherever you go to
I know that I was meant to be with you

Oh I will keep you close, I will keep you close
Won't let go now I've found the one
Oh I will keep you close, I will keep you close
Hold you tight till my days are done

That night we met in a crowded room
Couldn't keep my eyes off you
And everyone was
Fading away it was only you
Hoping you would see me too

And now I got your head on my chest for the rest of forever
Get what you get and I won't ever let it go
I won't forget, when we met, it was special
I'd be a mess without you

I've been waiting all my life to get close to
Someone so good yeah, I was supposed to
Be by your side wherever you go to
I know that I was meant to be with you

Oh I will keep you close I will keep you close
Won't let go now I've found the one
Oh I will keep you close I will keep you close
Hold you tight till my days are done

I will never let go
I just wanna keep you close
I will never let go
I just wanna keep you close

I've been waiting all my life to get close to
Someone so good yeah, I was supposed to
Be by your side wherever you go to
I know that I was meant to be with you

I've been waiting all my life to get close to
Someone so good yeah, I was supposed to
Be by your side wherever you go to
I know that I was meant to be with you

Now I know that you are all that I wanted
Something so pure now you know I'm all in
Wasn't really searching back then but I found it
Nothing could take you now that I got it

Oh I will keep you close I will keep you close
Won't let go now I've found the one
Oh I will keep you close I will keep you close
Hold you tight till my days are done
