

# Take It All Away

Michael Schulte

Oh I found a way now  
To go back in time with you  
To the place in the pines  
I was yours, you were mine.

In the night we cried out,  
In the dark I followed you,  
With the stars in our eyes  
Oh we held on to time.

CHORUS

Take it all away, take it all away now  
Take it all away, take it all away now,  
I will find a way to get back to you.

We hit in the tall grass  
And the world was out of view,  
In the wind we would share our dreams under skies of blue.

And we wove a fine dream,  
Held together by trust and truth,  
I will find a way to get back to you.

CHORUS

I will find a way to get back to you.
