

# Thinking about you

Michael Schulte

I'm just sittin' here and time is standing still now,  
All I do is think about you  
A moment filled with hope, sadness, joy and craving  
All I know's that i'm insecure

Wondering if you know how I feel

Oh my mind, thinking 'bout you all the time

I don't understand, the thing that's going on here  
I think I might be crazy 'bout you  
Hoping every day that there's a chance to hold you  
I would never let you go

Wondering if you know how I feel

Oh my mind, thinking 'bout you all the time

Every night and every single day,  
Every moment everytime I play  
This song

Oh my mind, thinking 'bout you all the time
