Tear Down The Walls

Michael Sembello

Tear down the walls forever
We build these walls together
Tear down the walls forever
It would be justice to let them fall

Fear on the trigger
Dying for technology
Digger on the mission
Building perfect love machines

You wanna be free
In a physical world
But so may not be here at all

Tear down the walls forever
We build these walls together
Tear down the walls forever
It would be justice to let them fall

Take a hundred monkeys, yeah
Living for biology
Putting in the cages, ooh
Turning off so you don't see

You think you can fight
An invisible foe
But the truth is just now what you know

Tear down the walls forever
We build these walls together
Tear down the walls forever
It would be justice to let them fall, yeah

You wanna be free
In a physical world
But so may not be here at all

Tear down the walls forever
We build these walls together
Tear down the walls forever
It would be justice to let them fall

Tear down the walls forever (tear down the boundaries between us)
We build these walls together (build up the futures that lead us)
Tear down the walls forever
It would be justice to let them fall

Tear down the walls forever
We build these walls together
Tear down the walls forever
We are the ones to tear down the walls

Tear down the walls forever [?]
We build these walls...
