

The Winter Of Our Love

Michael Sembello

The spring is a dance
A time for believing in logic
When love is romance
A fever in the air

And then someone comes
Hard nights and dreams of the lover
Love burns like the sun
On castles made of sand

Oh, how do you keep love's light alive
When the winter comes
When the winter comes?

And how we know love can survive
When the winter comes
In the winter of our love?

And when all unfolds
You gather up all of the memories
Like leaves set to flame
Are warming up the globe

Oh, how do you make old fires burn
When the winter comes
When the winter comes?

And how do our hearts find what they yearn
When the winter comes
In the winter of our love?

In the winter of our love
How can you leave me here?
How can you disappear?
Leaving me alone in the chill
Waiting for the season to turn
Waiting here for you to return
And you don't put still
I know you will
You will, you will, you will

In winter we find
Longing for all we remember
The shadows of love
Under icy eyes

So how do you make love come alive
When the winters come
When the winters come?

And how do we know love can survive
When the winters come
When the winters come?

And now that we know
Love can go on
And the winters come

And the winters come

Just how do we come in from the cold
Now that winter's come
The winter of our love?

The winter of our love

So cold, so cold, so cold
So cold, so cold
Sooo cold
Sooooooo cold
