

All Year Long

Michael W. Smith

This Christmas season I wish you joy
The wonder in every girl and boy
I wish you gladness, the warmth and cheer
Of good friends and family gathered near

May children's laughter and falling snow
Rekindle those sweet scenes from long ago
May every carol, each candle bright
Remind you why angels sang that night

If trouble finds you, this is my prayer
May peace guard your hearts and make you strong
And I wish you love, the kind to last all year long
