

## Love In The Light

Michael W. Smith

Darkness, thick and heavy, black and steady  
Screaming darkness  
Anyone who hates his brother  
Who plans evil for another  
Walks in darkness

Sunlight, warm and shining, purifying  
Welcome sunlight  
Everyone who loves completely  
With a heart that opens freely  
Walks in sunlight

Let us love in the light  
For love is from God  
If we love what is right  
We show whose we are

In a world of the dying  
We're living our parts  
If we love in the light  
With all of our hearts

Blindness, terrifying, left for dying  
Spirit blindness  
Anyone who thirsts for evil plots  
His very own upheaval  
Lost in blindness

New sight, truth unending, faith unbending  
New sight  
Everyone who seeks the father  
Leaves the world and all its bother  
Sees with new sight

Let us love in the light  
For love is from God  
If we love what is right  
We show whose we are

In a world of the dying  
We're living our parts  
If we love in the light  
With all of our hearts

Let us love in the light  
For love is from God  
If we love what is right  
We show whose we are

In a world of the dying  
We're living our parts  
If we love in the light  
With all of our hearts

Let us love in the light  
For love is from God  
If we love what is right

We show whose we are

In a world of the dying  
We're living our parts  
If we love in the light  
With all of our hearts

Let us love in the light  
For love is from God  
If we love what is right  
We show whose we are
