```
I feel You so close to me
I can hardly move or breathe
I can feel Your presence all around
I fall knees down to the ground
You're the one that really matters
I know that I have been found
The cares of life can't hold me down
'Cause You're the one I want to please
What matters now is what You think
You're the one that really matters
I know that I have been found
The cares of life can't hold me down
'Cause You're the one I want to please
What matters now is what You think
You're the one that really matters
(2x)
And I can't help but scream about the way that You moved in
Chaotic love has messed me up so I could live again
(2x)
You're the one that really matters
```

(2x)
