

## Used To It

Michal Leah

I never changed my mind  
Watching you walk away  
All that you left behind  
That was my everything

How many drinks? How many hellos? Yeah  
How many stays? How many should goes? Uh  
How many tears? How many new lows can  
Someone feel before they're getting over it?

Time should've stopped when you left me  
Wish I learned to forget like you did  
And I fill the days while my heart stays empty  
I never got over you, I just got used to it  
Oh  
I never got over you, I just got used to it

All of your favorite books  
I kept them on my shelves  
'Cause I need a piece of you  
I'm hoping the pages help

How many drinks? How many hellos? Yeah  
How many stays? How many should goes? Uh  
How many tears? How many new lows can  
Someone feel before they're getting over it?

Time should've stopped when you left me  
Wish I learned to forget like you did  
And I fill the days while my heart stays empty  
I never got over you, I just got used to  
Nights on the floor staring at this TV  
Mornings afraid it would hit  
I'm stuck in a loop and the thought of it scares me  
I never got over you, I just got used to it  
Oh  
I never got over you, I just got used to it  
I never got over you
