

Bones

Michele Bravi

(Bones, bones, bones, bones)
(Bones, bones, bones, bones)

Pull the shades, let the light in
There's a shock when the world ends
It's a place where you need me, need me
And you come and you glow and then
It's all silver and gold again
I'm alive, I'm alive again
Live again

Don't just beat it in my heart
It's fire in my bones
It's right here in my bones, bones, bones
Don't just beat it in my heart
It's fire in my bones
It's right here in my bones, bones, bones, bones
These bones, bones, bones, bones
These bones, bones, bones, bones

Pull the shades, let the light in
There's a shock when the world ends
It's a place where you need me, need me
And you come and you glow and then
It's all silver and gold again
I'm alive, I'm alive again
Live again

Don't just beat it in my heart
It's fire in my bones
It's right here in my bones, bones, bones
Don't just beat it in my heart
It's fire in my bones
It's right here in my bones, bones, bones, bones

(Hey, eh-eh)
These bones, bones, bones, bones
(Hey, eh-eh)
These bones, bones, bones, bones
(Hey, eh-eh)
These bones, bones, bones, bones
(Hey, eh-eh)
These bones, bones, bones, bones

Don't just beat it in my heart
It's fire in my bones
It's right here in my bones, bones, bones
Don't just beat it in my heart
It's fire in my bones
It's right here in my bones, bones, bones, bones
