

# Insane

Michele Bravi

Losing all the protection  
Without a cage  
Like a wounded bird  
Caught in a free fall  
It's dawn  
Outside it's so cold  
I will stay here  
I won't let you go

It's hard for me  
This sky is made of steel  
Yeah baby, it's hard for me  
I love your name  
And I'll say it loud because

The stars are shining  
And I can't see them  
My heart will fade away  
My head is drowning  
My hands have fallen  
My heart has gone away

Losing all my protection  
I lost it here between night and day  
Caught in a free fall  
It's dawn  
Inside it's so cold  
I will stay here  
I won't let you go

It's hard for me  
This sky is made of steel

The stars are shining  
And I can't see them  
My heart ain't gonna stay  
Decision's growing  
My will has fallen  
My heart has gone away

Don't wanna play this game  
Don't want to feel ashamed  
I just want to escape from this golden chain  
This sun will rise (for me)

The stars are shining  
And I can't see them  
My heart ain't gonna stay  
Decision's crawling  
My will has fallen  
My heart has gone away
