

## For Dear Life

Michelle Branch

When you reach out, I move in  
A little premonition on my skin  
Can you feel the storm that's rolling in?  
Do you hear a new love whispering?

One moment more and I'm holding onto you  
For dear life  
And now that I'm sure I am holding onto you  
For dear life

A deep blue night comes creeping in  
The candlelight is flickering  
So used to feeling all alone  
Now here comes something I don't know

One moment more and I'm holding onto you  
For dear life  
And now that I'm sure I am holding onto you  
For dear life

You are everything to me  
You're everything to me

One moment more and I'm holding onto you  
For dear life  
And now that I'm sure I am holding onto you  
For dear life
