

# Mastermind

Michelle Branch

You know you want it but you got no self-control  
You keep it running like a junkyard stereo  
A can of oil and she's ready to go, yeah  
You want it all, either death or glory?

You got the money but you ain't got no soul  
A little honey on the side of the road  
It's getting hot so you might explode  
If you slow it down, if you slow it down now

The sun comes up  
You turn me on  
Like I knew you would  
But when it's dark  
You turn me off  
Baby you're no good  
I don't know if I can  
Stay right where I am  
So turn me loose  
It's a part of your plan  
Mastermind

You know you've always been the fortunate one  
Your momma [?] you the gold the golden sun  
You drank your bottle and you rattled your gun  
Yeah you were bad news since the day you were born  
Somehow you caught me and you want me to stay in the trap  
I took your lovin' and you had to steal it back  
And now you're giving me a heart attack  
I'm not the only one  
Yeah you're a vagabond baby

The sun comes up  
You turn me on  
Like I knew you would  
But when it's dark  
You turn me off  
Baby you're no good  
I don't know if I can  
Stay right where I am  
So turn me loose  
It's a part of your plan  
Mastermind

I can run and I can hide  
But I know you're gonna find me in the end  
Oh mastermind

The sun comes up  
You turn me on  
Like I knew you would  
But when it's dark  
You turn me off  
Baby you're no good  
I don't know if I can  
Stay right where I am  
So turn me loose

It's a part of your plan  
Mastermind
