

Sunset Cigarette

Michelle Branch

Long ride break lights
Static on the stereo
Pull my hair back, sunglasses
Everything's dusty roads.

I don't know just what it is you want from me
But right now tell me anything and I'll believe
Yeah, you could tell me anything

Hold me up to your lips just to keep me close
Light me up, say that I'm the one you want the most
Whisper words in my ear so I won't forget
Tell me you love me like a sunset cigarette

Dog days, summer haze
Promise that you'll stay in touch
Ooh, but deep down I know
A million ways to mix it up

So won't you kiss me right now even though it kinda hurts
Ooh and if the teardrops don't stop strike a match and let it burn
I kinda like the way it burns

Hold me up to your lips just to keep me close
Light me up, say that I'm the one you want the most
Whisper words in my ear so I won't forget
Tell me you love me like a sunset cigarette, ooh
Tell me you love me like a sunset cigarette, ooh
(Tell me you love me)

Long ride break lights
Static on the stereo
In the back seat falling with my eyes closed

Hold me up to your lips just to keep me close
Light me up, say that I'm the one you want the most
Whisper words in my ear so I won't forget
Tell me you love me like a sunset cigarette, ooh
Tell me you love me like a sunset cigarette, ooh
You know I want you and I can't get out of it
Hold me up to your lips
Baby I love you like a midnight cigarette
Hold me up to your lips
Tell me you love me like a sunset cigarette
