

Too Fast

Michelle Chamuel

We spent the days sunbathing
and all the nights stargazing.
We thought it'd last forever,
thought it would never end.
We watched the moments passing
like they were not worth having.
We didn't try to slow the pace
and now those times have all gone away.
Tried to hold on hard,
tried to hold me back
without giving it up.
It wasn't enough to stay.
'Cause when it all goes down it goes down so fast.
The past is all we have, it isn't just the past.
It doesn't matter how we try, we can't make it last.
You know, you know that it all went by too fast.
We spent the days sunbathing
and it was so amazing.
We thought it'd last forever,
thought it would never end.
Tried to hold on hard,
tried to hold me back
without giving it up.
It wasn't enough to stay.
'Cause when it all goes down it goes down so fast.
The past is all we have, it isn't just the past.
It doesn't matter how we try, we can't make it last.
You know, you know that it all went by too fast.
I know we had the time of our lives, so fast,
now it's over and I want it back.
Because we watched the moments passing
like they were not worth having.
We didn't try to slow the pace.
When it all goes down it goes down so fast.
The past is all we have, it isn't just the past.
It doesn't matter how we try, we can't make it last.
You know, you know that it all went by too fast.
