

## Small Town

Michelle Wright

[Verse 1]

Doesn't seem that long ago  
I hit the road with my guitar  
Playing six nights a week  
Paying dues in smokey bars  
Sometimes, it's still hard to believe  
How far this road and you carried me?

[Chorus]

'Cause I'm a little bit of small town edge of the border  
A little big city when I got older  
When the carpet rolls up and the lights go down  
I'm still small town, small town

[Verse 2]

I've been all around the world  
Even kissed the Stanley cup  
Got to sing at the World Series, oh, Canada  
Some things are gone some things have changed  
Some things will always stay the same

[Chorus]

'Cause I'm a little bit of small town edge of the border  
A little big city when I got older  
When the carpet rolls up and the lights go down

I'm still small town, small town

[Guitar Solo]

[Chorus]

I'm a little bit of small town edge of the border  
A little big city when I got older  
When the sun comes up my feet hit the ground  
I'm still small town, small town (Small town)  
'Cause I'm a little bit of small town edge of the border  
A little big city when I got older (A little big city)  
When the carpet rolls up and the lights go down  
I'm still small town, small town  
'Cause I'm a little bit of small town edge of the border (A little bit of small town)  
A little big city when I got older (A little big city)  
When the carpet rolls up and the lights go down  
I'm still small town, small town  
Small town, small town
