# When I Found You

**Michelle Wright**

They say you'll know the first time your eyes meet
They say in love that a heart doesn't lie
There's no holding back if everything feels right
They say you'll know in that moment of time

Sometimes I felt I'd be searching forever
For something I'd never find

When I lost my heart I lost control
I lost my fear of letting go
The broken part of me I knew
I lost when I found you

I'm drown to you as you reach out to touch me
I hear the truth when you whisper my name
I feel complete when ever you're near me
I can't believe that it turned out this way

There was a time all I had to hold on to
Was the love I was hoping to find

When I lost my heart I lost control
I lost my fear of letting go
The broken part of me I knew
I lost when I found you

All I was wishing and all I was missing
I found in you

When I lost my heart I lost control
I lost my fear of letting go
The broken part of me I knew
I lost when I found you

When I found you
Mmmmmmmmm
