

I got the world on a string, but its tied around my neck  
And it's pulling me  
Over the edge

Saw love in her eyes  
But shes always asleep  
Had to wake up at five  
She texts me before she leaves  
So love me til I die  
And love me to death

Only the good die young  
Something an old man said  
When he lost his son to the war that he should've won  
Cause I'm somewhere in between  
Where I was and where I wanna be  
I still got my soul but it don't belong to me  
So love me til I die  
And love me to death

Oh cause God knows I'm trying  
To clean up the mess  
Oh so love me til I die  
And love me to death

Oh turn off the TV  
Cause I don't want to hear  
All the voices telling me that its over  
All the voices telling me that its over

Oh I know you love him  
At least you told me so  
But I wish you had loved me too  
Yeah I wish you had loved me too

Oh turn off the TV  
Cause I don't want to hear  
All the voices telling me that it's over  
All the voices telling me  
Voices telling me

Love me til I die  
Love me to death  
Oh cause God knows I'm trying  
To clean up my mess

Oh so love me til I die  
And love me to death
