

Fears

Michigander

It's starting over, yeah it's starting now
Why are you running, from your own crowd
Where are you going, and what ya plan to do
When you reach that edge girl, of all you knew

You can go but just don't leave me
Cause I don't know how I'm still breathing
You can go but just don't leave me
Cause I need to feel your heart beating

Every star is a sunset somewhere
Somehow I can feel the earth stop
When I'm with you
Maybe oh maybe you'll find something
Something for you, to sum up your fears of dying alone

You can go but just don't leave me
Cause I don't know how I'm still breathing
You can go but just don't leave me
Cause I need to feel your heart beating

Cause If you find me don't ever leave me
If you find me don't ever leave me
If you find me don't ever leave me alone
(X3)

You can go but just don't leave me
Cause I don't know how I'm still breathing
You can go but just don't leave me
Cause I need to feel your heart
Cause I need to feel your heart
Cause I need to feel your heart beating
