

Together

Michigander

Well, oh my God, the world is ending
Do you still want to meet me for dinner?
I feel the thunder, see the lightning
And these darker days keep getting dimmer

If the world's gonna fall apart
Maybe we could fall together
If the world's gonna fall apart
I'll stick with you, ooh
If the world's gonna fall apart
Maybe we could fall together
If the world's gonna fall apart
I'll stick with you

But turn it up, he started speaking
But he threw away his teleprompter
Am I awake or am I dreaming
Maybe I should call my mother

If the world's gonna fall apart
Maybe we could fall together
If the world's gonna fall apart
I'll stick with you, ooh
If the world's gonna fall apart
Maybe we could fall together
If the world's gonna fall apart
I'll stick with you

It's a peaceful panic
It's a heart attack
Just take your xanax
Kick your feet back
If you're feeling nervous
Try to fall asleep
And dream of somewhere you'd rather be

If the world's gonna fall apart
Maybe we could fall together
If the world's gonna fall apart
I'll stick with you, ooh
If the world's gonna fall apart
Maybe we could fall together
If the world's gonna fall apart
I'll stick with you

Alone, again
Yeah I'm feeling all alone, again
Wish I could be with all my friends
But I'm feeling all alone, again
