

# Catch As Catch Can

Mick Jagger

You think that you know me  
But look in my eyes  
Looks like your lover  
Is drunk every night

You won't recognize me  
Please take your time  
Down on my luck, girl  
Out of time

Catch as catch can [x2]  
You walk like a lamb  
I'm leaving you

You won't recognize me  
Just look in my face  
I've been a sinner  
I've been a disgrace

Darling you don't know me  
Just look in my eyes  
I've been out on the town, girl  
I've been out on the ties

Catch as catch can - go ahead  
You walk like a lamb - stand on your own two feet  
You don't understand, you don't understand  
Gun in your hand  
I'm leaving you

Not a little girl now

You think that you know me  
But look in my eyes  
Looks like your lover  
Is drunk every night

You won't recognize me  
Just look in my face  
Looks like your boyfriend  
Is a disgrace

You don't know me, you don't know me  
Just look in my eyes  
I've been out on the town, girl  
Yes I have, I've been out, I've been out every night

Catch as catch can  
Walk like a man  
Come on little baby  
Give my lover every [?] that you can

Catch as catch can - that's what I said  
Catch as catch can - come on girl  
You walk like a man - I can't understand this  
I'm leaving you

That's what I do

Hey
