Heed not the sound of drums

Why can't we walk this road together
And keep our children safe and sure

G C

War - War baby

And they made us poor
Made our future unsure hazy

Es

F G

Why don't we run this race together
And keep our children safe and sure

C F

But the arms race is on
And the tanks all roll out
All the guns are in place

B

We just wait for the shout

G G C

To arms, to arms

And the guns start to roar
From the ship to the shore
And the bombs start to fall
As we crouch in the hall
As they bust through the beach
Out on Omaha Beach

Es

F G

Why can't we run this road together

Es

B Eb

Why can't we hope to find a cure

But the arms race is on
And the tanks all roll out

All the guns are in place
As we wait for the shout
And the army sweeps on and on

And the navy sails out
As we rush to the edge
As we wait for the shout
As we wait for the shout
To arms, to arms
