Mick Jenkins

Free, free, free  
Free, free, free  
Free nation rebels  
Free nation rebels

Ay, free 'cause I don't do this for no dollar  
But they know I get paid though  
And I put interest on the peso  
Business manager on speed dial, that nigga do my say-so  
My tithes faithful  
The pride come before the fall, I ain't tripped in a while  
Developed a gap, already gifted with God  
I found the key, I'm on a kite, I get these Benjamins now  
A flash of light and niggas interested now  
The fans, they fuck with me like they can't see how dark my pigment is now  
A bunch of white boys tripping out, screaming "nigga" at me  
They trigger happy  
My figures happy, the venue happy, the show is sold out  
They lining up and load in  
I give them less of what they want and more what they need  
My mama used to think that it was only weed I rapped about  
I capped a lot at first, but that didn't last too long  
No, that didn't last two songs before I folded like futons  
I'm on my croutons, I'm on my Groupons  
Like shoutout, say money with no coupons  
I brought the coupe out  
I brought the tree, I brought the truth out  
I brought the waters, I brought the love and niggas had me tuned out  
Trump brought the coons out  
I had to pull that silver spoon out  
The moon out  
I'm with the wolves, I can't pull my wool out  
Black sheep, I've been on my TLC  
Niggas jock so I creep  
I'll come and tuck you in if you sleep
