

# Mop

Mick Jenkins

Hmm

(Cole, you stupid)

Since a shorty, Mama was kneading the dough  
I been breakin' bread, grew up in the church  
Did the stained glass, fam', I been breakin' bad  
In a breeze on some windbreaker shit  
In these trees like I got a hidden dragon  
The balance is evident  
Avatar, never out of my element  
If I can, I'm Star-Trekking it too, I mean, let's be for real  
Y'all can't glow where my hue go  
Or clock lightyears with the Hublot, a nigga too far ahead  
Too slow coming off of the line, they talk drag  
But it's a marathon, I thought he told you

I just keep moppin' these flows

I just keep it clean as I'm suppose'  
Fabric softener, these niggas is hoes  
Fresh out the machine, the way I seen niggas fold  
I do my paper the same  
Landscaping, know my grass look green  
I ain't gon' say it's the same, but you know, shit ain't always what it seem  
s  
It's common French, I stay schemin', I ain't playing them games  
Whole thing just a pyramid scheme  
You never see, but keep hearing these things 'bout the dirt that we did

I just keep moppin' these flows

Yeah, I just keep moppin' these flows  
Who knows, the chemicals, shit got me exposed to  
Fertilizer, we was just tryna grow  
No pesticides, you gotta weed out your bros  
Uncircumcised, got extra skin in the game  
A million more like me in the fold  
That's how I'm comin'  
I hustle when a nigga didn't have, that's how I'm bummin'  
A cash cow with big calves, that's how we run it  
Wherever we grazed  
If I spend it, it's a mail-in rebate  
I get it back, I need it ASAP (ASAP), yeah  
I need a mop, I hit the water with some Ajax, yeah

I mean, I feel like, I'm, I'm just now stepping into what I feel like is a,  
is a full agency  
Over my creativity, my artistry, my, my, my, uh, my business  
Um, and even myself as a man and I think it just takes time to get there, yo  
u know?  
I don't think that that's something that anybody is gifted when they become,  
you know, a man  
Or when they find out who they are when they step into an industry, you know  
?  
Where they're expressing, you know, through the deepest parts of who they ar  
e  
I think that's, that's a journey that you're on, um, and you know

Um, tryna rush that doesn't get you anywhere except where you don't wanna be  
, fast, you know, so, um  
Allowing that process to be, be it, um  
Allowing yourself to make mistakes and-and learn and grow from that  
Understanding that it's all molding you to get to where you're going, um  
Again, I just, I recognize there's a lot of patience in that  
So, trying to have more of that
