

## Scottie Pippen

Mick Jenkins

I was trippin'  
I was definitely trippin' now that I think back  
I was bitter  
No matter how I shoot, I'll never win it all  
On my own, yeah, without you (Without you)  
It's the same thing for me  
I was trippin'

I was just used to that shit  
It's like suicides at the practice, I was conditioned this way  
You a brand new conditioner  
Didn't realize that I was auditionin' though  
Bring all of your big ambitions this way  
Don't tell me no lies, I'm learnin' I'm missin' it, huh  
You should recognize a nigga is different this way  
Let's randomize, and way more intentional now  
Goes all the way down to your hips and the distance they sway  
I got the mirage and kissin' the lip-gloss you use  
I count up the freckles and all of the dips in your face  
Nothing can touch that joy  
Bit of better of your feet  
I always sleep at your place

I been trippin'  
I was definitely trippin' now that I think back  
I was blue, I was crippin'  
I was trippin'  
No matter how I shoot, I'll never win it all  
On my own, yeah, without you (Without you)  
It's the same thing for me

You wouldn't entice the young man  
Your voice was nearly enough to suffice at that time  
That isn't likely these days  
You know what I mean, we sacrifice for this love  
I know for sure it's not overprized over her  
And that's not to say it wasn't expensive as fuck  
That's not to say we didn't roll a dice over here  
Scratchin' our head, it wasn't no lice  
Just real life committed to her, all of her vices would clear  
She committed to me despite the advices we heard  
We thought it was sweet, it's not over wives over here  
Feel like a mail bird, a pepper dice for a year  
Still we throwin' rights over here  
We both have walls up so high  
Reachin' new heights over here

I been tripping  
I was definitely tripping now that I think about it  
With the crew, I was different  
Eyes were red  
I was bitching  
Bullshittin  
No matter how hard I shoot  
I will never win it all, on my own, without you
