Ugh

I could give a fuck about a chain  
Need a chance, need some change  
Fuck a dance  
I'm gone stay right here with my two step  
Like to look at pictures out the frame  
Got no chance in this game  
Out your lane  
I'm gone stay right here with my two step  
With my

I think I could make her pussy backflip, aye  
She could hold her water like a cactus, aye  
I don't wanna take her 'round the atlas, aye  
I just wanna fuck until my back ache  
One step, step back bitch I'm a spectacle and I'm proud  
This pedestal is where berettas blow but I'm not the man to take down  
They finna milk the boy the minute that I come across as any type of cash co  
w  
I got a pill addiction that I'm trying to kick, but when I kick the bitch ki  
ck me down  
One step forward, two step back  
Don't stress when they press the metal to my neck  
I'm gold little boy the medal on my neck  
Deflower women I got a meadow in my bed

Taking steps to do right by you  
Taking steps to do right by you

I could give a fuck about a chain  
Need a chance, need some change  
Fuck a dance  
I'm gone stay right here with my two step  
Like to look at pictures out the frame  
Got no chance in this game  
Out your lane  
I'm gone stay right here with my two step

With my two step  
I take one step at a time  
With my two step  
I take one step at a time  
With my two step  
I take, hey  
One step  
One step at a time

I think I could make her pussy backflip, aye  
She could hold her water like a cactus, aye  
I don't wanna take her 'round the atlas, aye  
I just wanna fuck until my back ache (I-I)  
I gotta switch up my mind set  
I don't got nothing but time, bet  
Taking a step at a time, yes  
Better myself, feel it in my chest  
Now let me digress

I been away from the topic  
I'm overwhelmed and I'm godless  
My fear of god is ironic  
It's pulling teeth in my conscious  
And I don't know an orthodontist  
Young hemophiliac  
Blood over water but I downed in Cognac  
Never get a rubber when I get to rub the cat  
Irresponsible, but fuck I'll place my bets

Taking steps to do right by you

I could give a fuck about a chain  
Need a chance, need some change  
Fuck a dance  
I'm gone stay right here with my two step

Fuck boy called thinking that he real cunning  
Told me "can you check if your refrigerator running?"  
Don't waste my time, I'ma see you when I see you  
Then I made him run the freezer, bitch it ain't that funny  
But I been writing my wrongs now  
And I been trying to calm down  
He put the gat to my face and I'm facing the fact that he won't put the gun down  
Blow  
That's crazy  
Now my momma got one less baby  
In the name of the "fuck you, pay me"  
Thought you said that you would not betray me  
Gave my spot away to get a bit of cash  
I would died for you, man that shit fugazy

Taking steps to do  
Taking steps to do right by you

I could give a fuck about a chain
