

Future Atomic

Mickey Avalon

I get supersonic when I'm shooting narcotics
The future isn't timeless, you're baby's gonna be retarded

I'm the illest motherfucker of the human race
Blasting mad pussy in the outer space
My sucker-ass neighbour shouted turn down the base
So I shot homeboy in his fucking face

I'm poison, my life's obsolete
The police always look through my peephole
I'm poison, my life's obsolete
The police always look through my peephole

The future's so chaotic, big brother's always watching
All your bitches, be psychotic
Nah, that ain't a cue ball in my pocket
I never met a hooker that I couldn't freak
Work that pussy everyday of the week
Making that money while she's down on her knees
'Cause if she don't she'll be out on the streets

I'm poison, my life's obsolete
The police always look through my peephole
I'm poison, my life's obsolete
The police always look through my peephole

I sold it, you bought it, my cock is robotic
On the weekend, I get erotic
This beat is electronic
Licking on your pussy and I'm loving the taste
Motor-mouth Mickey can't keep 'em away
The cops came knocking tried to break in my place
So I shot them motherfuckers in they fucking face

I'm poison, my life's obsolete
The police always look through my peephole
I'm poison, my life's obsolete
The police always look through my peephole
