Mickey Avalon

Legends never die  
Legends never die

We wanted dead or alive  
Like a thief in the night  
I shoot the price sky  
Sit back and farm that APY  
Decentralized  
De-Fi done right  
Life is only a roll of the die  
Real legends never die

Legends never die  
Legends never die  
Legends never die  
(They say)  
Legends never die

Momma always told me never retreat  
Straight outta Auschwitz took to the streets  
From the back alleys of Melrose and Vine  
Blockchain got me paid, SATS to the sky  
Needed a dollar to get some relief  
Went all in on an NFT  
Doubled'd my bubble, tripled my cheese  
Got 10X'd stackin' hella ETH  
Now I got a mansion, marble floors  
Private Jet with the suicide door  
Penthouse Pets who do my chores  
Needin' for nothin' but I want more  
So I drove my Impala straight to the beach  
Jumped in the ocean with no briefs  
And since I didn't wanna lose my ass  
I went and got LEGEND on P L S

We wanted dead or alive  
Like a thief in the night  
I shoot the price sky  
Sit back and farm that APY  
Decentralized  
De-Fi done right  
Life is only a roll of the dice  
Real legends never die

Legends never die  
Legends never die  
Legends never die  
(They say)  
Legends never die

Used to Live at my grandma's, sleep on the couch  
'Til I bought a hidden gem and got the fuck out  
Looked through the charts at the micro caps  
Found a coin and it blew up fast  
Now it's all rainbows and unicorns  
Don't need to work in a uniform  
No punching clocks no suit and tie

Cuz legends never die

We wanted dead or alive  
Like a thief in the night  
I shoot the price sky  
Sit back and farm that APY  
Decentralized  
De-Fi done right  
Life is only a roll of the dice  
Real legends never die

Legends never die  
We wanted dead or alive  
Legends never die  
Legends never die  
Legends never die  
We wanted dead or alive  
Legends never die  
Legends never die
