

Ride or Die

Mickey Avalon

She's my ride or die
Took her out of Heaven to the other side
She's so sweet and sour
Licking from her toes to her inner thigh
She's my ride or die
Took her out of Heaven to the other side
She's so sweet and sour
Licking from her toes to her inner thigh

She like, "Hey bitch are you ready to die?
If you got a problem we can take it outside."
Never backed down I was up for a fight
Slapped that hoe when she started to cry
She got side boob peaking out of her shirt
Ass so fat barely fit in her skirt
If you got shit she gonna settle it first
With the switchblade knife at the front of her purse

She calls me pappy when we get naughty
She licks the lollipop, that punanny, ooh

She's my ride or die
Took her out of Heaven to the other side
She's so sweet and sour
Licking from her toes to her inner thigh
She's my ride or die
Took her out of Heaven to the other side
She's so sweet and sour
Licking from her toes to her inner thigh

She like, "Hey bitch get the fuck out my face
You better find out how my Fendi's taste."
And if you get sassy with a bottle of maize
She'll flash you a little pistol tucked into her waist
She gotta need for speed when she driving a car
I always thought "shit" when she get to the bar
White wife beater never needed a bra
She a pint glass thrower to the side of your jaw

You so crazy, she slaps hoes daily
My cutthroat lady, let's make some babies

She's my ride or die
Took her out of Heaven to the other side
She's so sweet and sour
Licking from her toes to her inner thigh
She's my ride or die
Took her out of Heaven to the other side
She's so sweet and sour
Licking from her toes to her inner thigh
