

IN THE FUTURE

Mickey Darling

So you wanna be famous, making your art?
Well, first things first, babe, you gotta start
Don't be afraid, don't be too cool
"There are no rules", is the only rule
Write a super catchy chorus, catchy verse
Get a billion streams, goddamn it worked
Too much free time does you no good
You'll have it all just like you should

In the future
In the future
You'll have it all in the future
Be patient, love, I'm sure
You'll get more

I'm on the bus, I'm late to work
Cute girl sits next to me, I flirt
Get her number, I call it to work
'Cause I'm done waiting, waiting, waiting

For the future
For the future
For the future
Be patient, love, I'm sure
You'll get more

Don't complain, while you're chasing down your youth
Oh, don't be vain, think you lost another tooth
Don't go insane, tryna find somebody new
Don't go insane, tryna find somebody new
You're just living

For the future
For the future
You'll have it all in the future
Be patient, love, I'm sure
You'll get more
