

pipe down

Mickey Darling

Trace it back to the source
Find out where the heart attack's coming from
Take a nap, wake up empty
A pixel paperback, calls you dumb

If I can make it out tonight, I'm going
If there's a chance we might all die, I'm so in
Purgatory dancefloor, now we're floating
Hoping, that you might

Pipe down
Pipe down
Just a little for me
Don't drown the sound!
Can't you see I'm dancing?
Pipe down
Pipe down
Just a little more please
Don't drown the sound
Don't drown me out!

Talking to myself, I don't need ya
When I talk I yell, silent treatment
If I wanted help, I would ring ya
But you broke my cell every weekend

If I can make it out tonight, I'm going
If there's a chance we might all die, I'm so in
Purgatory dancefloor, now we're floating
Hoping that you might

Pipe down
Pipe down
Just a little for me
Don't drown the sound!
Can't you see I'm dancing?
Pipe down
Pipe down
Just a little more please
Don't drown the sound
Don't drown me out!
Don't drown the sound
Don't drown me out!
Don't drown the sound
Don't drown me out!

Lose my cool in the taxi
Screaming through all the backstreets
I wanna know
When we gonna
When we gonna grow?
Now we're laughing
Getting high in the backseat
I wanna know
When we gonna
When we gonna grow?
In the taxi

Screaming through all the backstreets
I wanna know
When we gonna
When we gonna grow?
Now we're laughing
Getting high in the backseat
I wanna know
When you gonna
When you gonna

Pipe down
Pipe down
Just a little for me
Don't drown the sound!
Can't you see I'm dancing?
Pipe down
Pipe down
Just a little more please
Don't drown the sound
Don't drown me out!
Don't drown me out!
